### Three-Year Term Contract with Two Years of Renewal Options for Chemical Detectors and Radionuclide Identification Devices for the Mesa Police Department **(Citywide)**

The Bomb Team will use this equipment to quickly respond to and address hazardous substances/materials. The Chemical Detectors/Identifiers can test solids, liquids, chemicals, and powders with minimal risk of igniting the substance. The Handheld Radionuclide Identification Devices will locate and measure radioactive sources. This equipment can be used at large gatherings to protect attendees.

An evaluation committee recommends awarding the contract to the highest scored proposals from Pendar Technologies, Inc. and Safeware, Inc., at \$225,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index. The initial purchase funded by Arizona Department of Homeland Security grant funds.
