File #: 22-0725, **Version:** 1

Three-Year Term Contract with Two Years of Renewal Options for Drip Drop Oral Rehydration System for the Mesa Fire and Medical Department (Sole Source) **(Citywide)**

In performing their job duties, firefighters often need dehydration relief. After performing a pilot program MFMD's Safety Committee has recommended moving forward with Drip Drop rehydration powder packets. It contains a blend of electrolytes (magnesium, calcium, and chloride) and sugar and has a higher sodium content compared to Gatorade.

The Mesa Fire and Medical Department and Purchasing recommend awarding the contract to the sole source vendor, Drip Drop Hydration, Inc., at \$60,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.
