### Purchase of Two Gas Delivery and Breaching Systems for Armored Vehicles (Additions) for the Mesa Police Department (Sole Source) **(Citywide)**

This purchase will provide DRACO breaching operational equipment for the two Lenco BearCat armored vehicles being purchased by the Department. The new DRACO Gas Delivery System will equip operators with a gas delivery system capable of remotely delivering up to eight chemical gas canisters and two noise flash diversion devices from the safety of an armored vehicle. It is a multi-use tool designed specifically for the safe delivery of command-initiated, indoor safe baffled chemical grenades and noise flash diversion devices into a hostile environment, including hardened structures and/or vehicles.

The Fleet Services and Police Departments and Purchasing recommend authorizing the purchase with the sole source vendor, JN Tactical, for \$44,296. This purchase is funded by Public Safety Sales Tax.
